One Way of Saving a Baby—Free to Try

The mother does not live who would not do all in her power to keep her child healthy, but often she does not know how. So when a doctor of standing points the way all can afford to listen. It is an accepted fact that nine out of ten of the troubles of infants and children is intestinal. You notice it by the fact that the child is constipated, it heaves, is peevish and cries. Don't give second-hand medicine, because the child will get in the habit of needing it and don't become alarmed and run at once for a doctor. Try a scientific laxative first. Give a small dose of Dr. Caldwell's Syrup Pepsin, the remedy that is intended for the use of children. It is mild, gentle and non-gripping. The remedy is absolutely pure and is guaranteed in every particular. Mrs. Toomey of Elmingsville, Pa., and Mrs. Fred Crome of Alanson, Mich., do all in her power to keep their child healthy, but often she does not know how. So when a doctor of standing points the way all can afford to listen. You can buy a fifty cent or one dollar bottle of any nearby drugstore for they have all sold it for a generation, but if you want to test it on your child first send your address to Dr. Caldwell and he will cheerfully send you a free sample bottle. Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him, Dr. W. B. Caldwell, 24 Caldwell building, Monticello, Ill.
